

Ice breaker

R08

Thanks to the refined aesthetic, the structure and the blades in stainless steel, the base in marble, the powerful and silent gearmotor this ice breaker, made for the professional use, finds its natural employment in pubs, bars, discotheques, restaurants and in all those premises where the preparation of cocktails, fruit and fresh fish is required. The substantial difference with the most traditional ice crusher T60 is in the greater dimension of the ice that, broken and not crushed, has a longer duration before the melting.

Components: structure and blades made of stainless steel, base of marble

Options: ice tray

Tension: 230V - 50Hz

Absorbed power: only 1800 W

Dimensions: 200 x 320 x 490 mm (width x depth x height)

Turn speed: 66gear/min

Net weight: 10 kg

Packaging dimensions: 365 x 245 x 600 mm (width x depth x height)

Volume: 0,053 m³

Gross weight: 11 kg
